

blueberry

Blueberry have been connecting programme makers with great editors since 2002.

Our editors specialise in Documentaries and Factual Entertainment, including Grierson, RTS and BAFTA nominated and award winning programmes.

"I've been working with Blueberry for 12 years. They have terrific editors on their books and always keep you posted about who's available when, which is invaluable. Having so much talent under one roof really helps when crewing big multi-episode shows. The team are always a pleasure to work with and it's great news they are becoming PMA sponsors."

Ceri Smith, Production Executive, Raw TV

"The best thing about Blueberry is that they always strive to get me work on the kind of projects I want to work on, rather than just filling work placements. Blueberry have always worked tirelessly for me and I appreciate everything they do."

Billy Rich, Blueberry Editor since 2004

Some of our clients and programmes our editors have worked on recently...
