Following the best marine salvage teams in the world as they race against the clock to recover ships wrecked by fierce storms that rage across the globe.

Renowned Films

The Weather Channel

### Prime Suspect: Earth

60 min Documentary

Series that explores if natural phenomena could have played a role in mysterious historical events. Was the weather to blame for Napoleon Bonaparte's shocking defeat, a mystery blast that rocked a remote island, or a daredevil aviator's disappearance on a routine flight? For each story, a team of experts collect and analyze data, build a virtual crime scene, and step inside each scenario to crack the case.

Bigger Bang

The Weather Channel

### The Pyrenees with Michael Portillo

60 min Documentary

As he approaches a milestone birthday, former cabinet minister and broadcaster Michael Portillo embarks on a journey of self-discovery, walking stretches of the Pyrenees.

Edit Producer: Richard Nash, Executive Producer: Charlie Bunce
